

Damon Rutherford, CPFM – D&C

Officers of Administration Council seat

My journey to the UO started during an informational interview with CPFM while attending Lane Community College. I knew it was an employer I wanted to find my way to, I just wasn't sure how. And now, several years after that interview, and working within CPFM going on two, I still can't believe my journey took such a fortuitous turn.

Now that I'm here, I want to do all I can to support the UO, and enhance other campus users experience. I see being a part of this council as an excellent vehicle to accomplish that. I also believe that through my lens, being part of the CPFM Design and Construction team, I will be able to provide a different view than is typically present on the Council.

I hope that I am selected to help the OA Council achieve its goals, and I appreciate your consideration.
