

Jack Boss, School of Music & Dance

University Senate seat

I've served the School of Music and Dance as one of its University Senators for two terms. I've enjoyed the opportunity to grapple with issues facing the entire University, such as the present discussions about more equitable service loads, and provide our School's perspective. On numerous occasions I've been able to participate in deliberations about legislation that directly affected the SOMD, and worked to make sure that legislation affected us positively. I would be pleased to represent our School for another term.
