

Dear University of Oregon Community,

Over the last four years, I've been the Statistical Consultant at the University of Oregon Libraries. Coupled with my prior role as research faculty at Portland State University, my experience brings both depth and passion for advancing shared governance and academic excellence on this campus.

Throughout my time at the University of Oregon, I have had the privilege of working closely with students, faculty, and staff from diverse academic backgrounds. This experience has equipped me with a deep understanding of the challenges and opportunities facing our university community. From collaborating on research projects to assisting students with data analysis, I have witnessed firsthand the not only the importance of higher education but also the challenges it faces.

My primary goal is to champion shared governance and academic excellence. I believe that by fostering open communication and collaboration among all stakeholders, we can create a campus environment that nurtures innovation and fosters intellectual growth. As a classified staff member, I understand the importance of advocating for the needs and concerns of all university employees, and I am committed to ensuring that their voices are heard and respected.

I am deeply invested in the success of the University of Oregon and am dedicated to working tirelessly to advance its mission of exceptional teaching, discovery, and service.

Thank you for your consideration.

Sincerely,
Cameron Mulder
