

Jadd Tryon, Office of the Dean of Students

University of Oregon Senate Candidate Statement

Dear Colleagues,

As a Eugene Native who graduated from the UO and now works at this beautiful university, I am both fascinated by this institution's history and actively invested in its future. For the past three years, I have served as the Administrative Program Assistant for Fraternity and Sorority Life. This position has provided me with valuable opportunities to interact with a diverse range of students on a regular basis. I believe that this aspect of my work gives me perspective on up-to-date information about what students both want and need from their campus.

I take pride in helping enrich the experience of our dynamic students at UO. My talents include being a savvy, enthusiastic, and energetic service-minded "helper" who strives to find common ground and foster inclusion. I am inquisitive and approach problems with my own brand of optimistic pragmatism. I am a member of SEIU 503, sub-local 085 and believe strongly in organized labor. My philosophy as a member of the UO Senate would be to fight for best-outcome solutions for both students and colleagues alike.

The University of Oregon is truly an extraordinary place, and I would be honored to serve my colleagues as a Classified representative on the UO Senate.

Thank you for your consideration and Go Ducks!
