

**As a current serving Senator, Senate Executive Committee member, I have consistently demanded for equal representation of classified employees ranging from high level search committees to diversity issues; we'll no longer be excluded, nor disregarded. Our voices will be heard. Our ideas, views and contributions are valid and need to be part of UO's "Inclusion" policy. I take this extremely seriously, as there is more work to be done. Always fighting for transparency ~ In Solidarity, Jay Butler**
