

Madison Beine, M.Ed.
Coordinator of Orientation Programs

Student Orientation Programs
Student Services & Enrollment Management

As a passionate advocate for inclusive governance and equitable representation, I am eager to contribute my skills and experience to the UO Senate and OA Council. If elected, I would be a proactive advocate for the diverse voices of students, faculty, and staff, with a particular focus on enhancing a sense of belonging and wellbeing within our campus community.

In my five years of professional experience, I have had the opportunity to work at four different institutions through full-time roles, graduate assistantships, and graduate internships. Through these experiences, I have gained invaluable insight into the importance of robust support systems for faculty and staff. If I can serve through these roles, I intend to champion initiatives aimed at enhancing professional development opportunities for faculty and staff and ensuring that our compensation and benefits reflect the eminence of the University of Oregon as a tier 1 research institution and a member of the prestigious AAU.

During my two years at the UO, I have actively contributed to various facets of student engagement and support, both within my division and across the university. I have had the opportunity to support large-scale programming, directly supervised four different student staff teams, and participated on divisional and university wide teams, including the SSEM Presentation Team and Common Read Committee. Through my work, I focus on centering and amplifying student experiences and nurturing an environment conducive to student growth and success. Drawing upon these experiences, I am poised to advocate for policies and strategies that support our growing student body while prioritizing the sustainability and wellbeing of our faculty and staff. I believe that working towards achieving this balance will allow for better outcomes for the student experience as well as the faculty and staff that work tirelessly to support them.

I would be honored to have an opportunity to share these experiences and advocate for students, faculty, and staff on the UO Senate and OA Council. Thank you for your consideration.
