

Marcus Langford, Office of the Dean of Students

I serve as the Associate Dean of Students. In my role with the Office of the Dean of Students, my work primarily centers around leadership/engagement, and equity/community building. I works to create and sustain a campus community where students have an opportunity to be engaged and involved in a community that is accessible, affirming, and transformative. I would like to be elected to extend my connections across campus, and continue to enhance the educational experience for students, and the campus community for all UO constituents.
