

Senate Candidate Statement: Robin Clement, College of Business

I have been at the UO for almost 19 years. I am the James F. and Shirley J. Rippey Senior Lecturer II of Accounting. During 18 of these 19 years, I have been the program director of the Lundquist Master of Accounting program. Since 2017, I have been the academic director of the Sports Product Management Master programs (on-site in Portland and on-line). I was on the team that developed the SPM on-line program and helped to shepherd the on-line program through the college, university and state approval processes. My service in the Senate has included the Senate Executive Committee, Senate Budget Committee, co-chair of the Textbook Affordability Task Force, chair of Graduate Council.

I am seeking a third term as a senator representing the Lundquist College of Business because I really enjoy learning and participating in the development of policy proposals, new programs, and discussion of other issues that are of a concern to the students, staff, faculty, administration and the citizens of Oregon. I have always believed that universities are have the potential and at times the realization of very significant contributions to the health and vitality of the state and its citizens. I am especially excited about the Ballmer Institute for Behavioral Health which will address a significant problem for our young people. I believe it could help to transform young people's lives for generations to come.
